

please reject NAB's petition 04-160. I have been a subscriber to XM Radio since 12/03, and benefit from their programs, variety and quality that are not found on mainstream radio. I pay for the service, and feel I have a right to enjoy all programs, especially weather and traffic info as I travel to other large cities such as Orlando, Detroit and St. Louis. In the near future I will be relocating to Atlanta, and HOPE that there will soon be a station devoted to Atlanta!

Respectfully,

Kelly A. Brangan
